

# Slow Death

Carnifex

Out of hell but they'll always drag me back  
Close my eyes, I don't want to take a breath  
We are the dead generation  
This hypocrisy  
Death's words inside of me  
Screams of agony  
Witness the pain of true suffering

My heart bleeds emotional genocide  
My inner demons scream  
End it with suicide  
Hold me down  
With hands around my neck  
It's hard to breathe at first  
By now I'm used to it

Lifeless eyes  
Watching my world turn to lies  
Lifeless eyes  
A place for me for me to die  
Walk off the edge of the earth  
Slow death without a single sound  
Ashes in the wind  
I hope my body's never found

Never fucking found

Songs for the hopeless  
We are death's forgotten children  
I wish I never had to write these words

Depression kills us slow  
But it's not our time to go  
I know you want to die but just hang on

Bury me alive  
This is our sickness inside  
Walk off the edge of the earth  
Slow death without a single sound  
Ashes in the wind  
I hope my body's never found

Never fucking found

Lifeless eyes  
Watching my world turn to lies  
Lifeless eyes  
A place for me to die

Lifeless eyes
