

# Out Of Misery

## Carnival in Coal

Life in the 20th Century is everything but easy  
Most people unemployed  
The young and the old on the dole

Fortunately, our modern state  
Developed methods to keep you out of misery

An hour or two spent in a queue  
Fill twenty files and access to paradise

If you're 25, ask for R.M.I.  
Just stay home and get the f\*\*king money  
And it's so well made  
That your debts will be erased  
Make your best to abuse the system

Brave new world remunerating idleness as a part-time job

Of course some things are asked to me  
Go to the ANPE  
So that they go on paying  
When all I do is nothing

Fortunately it's only two times a week  
Sometimes you make a sacrifice

A tiny pain for a comfortable gain  
Allowances are falling like rain  
Like rain

If you're 25, ask for R.M.I.  
Just stay home and get the f\*\*king money  
And expecting mothers  
Will even get more  
Giving a future to the nation  
And gettin' paid for

Stand and deliver profits and benefits  
GO!

Help yourself in the gold mine  
The witty lead the blind  
Help yourself in the gold mine  
Life suddenly comes fine

If you're 25, ask for R.M.I.  
Just stay home and get the f\*\*king money  
And it's so well made  
That your debts will be erased  
Make your best to abuse the system

Fortunately our modern state  
Keeps you out of misery
