

# God Is Dead

Carnivore

God looked down from heaven shook his head and wept  
His flock had gone astray wolves mingling with sheep  
You tried to save man once by sending down a son  
But the bastards nailed him up  
And laughed at what they'd done

You gang raped mother nature I love a virgins cry  
Blood poured from the earth she suffered and she died  
Rusty scissors still in hand you castrated father time  
Feed his balls to the hounds that drink his cum like wine

God is dead

You've taken all my precious gifts  
I gave unto you life from by breath  
You a product of my love  
Your gratitude shown in my death

The devil has taken your spirit  
Keeps it chained up in the night  
Tells you that evil is good  
But you will never see the light

Eat his body drink his blood  
Then we'll sing our song of love

Now you come crawling on your hands and knees  
You beg for forgiveness suck me till I bleed  
And for your transgressions heretical blasphemy  
The punishment is damnation you'll burn interminably

Look what you've done to nature  
And what you've done to time there's no more room in hell  
Your sinners you steal what is mine

Now the dead walk the earth  
There's nowhere to hide  
The devil and his disciples  
Rejoice my suicide

Bustin' heads breaking legs  
Smashin' faces spreading hate  
Screaming out this can't be real  
Broken bottles chains and  
Knives bats and pipes to end your life  
Crush you beneath my wheels

And of course no regret give me freedom or give me death  
You're flirting with disaster  
Riding wild running free no one's gonna govern me
