

# Never Ever

Caro Emerald

Love, I was wrong and you were right again  
I came to find you when you ran away  
You said alone would be the perfect place  
Like paradise  
I asked you why and you would never speak  
You made it like a game of hide and seek  
But not before you took control of me  
In paradise

If you gave a little, all you do is take it back again  
Leave me in the middle until I would reminisce again

And I never ever thought you would leave me  
Never ever would you deceive me  
Never ever would you betray me  
Never ever you'll try to slay me  
Never ever thought you would leave me  
Never ever would you deceive me  
Never ever would you betray me  
Never ever you'll try to slay me

You told me lust could be an enemy  
String me along and strangle all my dreams  
Left me alone 'til I was scared of me  
In paradise  
I'm cracking every mirror on my walls  
And I'm not taking any of your calls  
Suddenly gone, and now it's all my fault  
Is this paradise?

Why do make every day in front of me impossible?  
Why do you make anything and everything unreasonable?

I never ever thought you would leave me  
Never ever would you deceive me  
Never ever would you betray me  
Never ever you'll try to slay me  
Never ever thought you would leave me  
Never ever would you deceive me  
Never ever would you betray me  
Never ever you'll try to slay me

If you gave a little, all you do is take it back again  
Leave me in the middle until I would reminisce again

And I never ever thought you would leave me  
Never ever would you deceive me  
Never ever would you betray me  
Never ever you'll try to slay me  
Never ever thought you would leave me  
Never ever would you deceive me  
Never ever would you betray me  
Never ever you'll try to slay me
