

# Riviera Life

Caro Emerald

(Eh, Yeah, yeah, hit'm, ye-yeah)

I'm really tired of my concrete jungle  
Six days a week is way too much  
I'm gonna make the great escape  
Go on a little getaway

I'll go get my beat up motor  
Start it up and head for the green  
Of endless countrysides  
And go somewhere I've never been

I'll stop, kiss my blues goodbye  
Breathe until I soar outside my crazy nights  
And live the Riviera life  
I'll stop, thankyou for today  
I'm sure that by candlelight, I'll be alright  
And live a Riviera life

Mmm...  
I'll live a Riviera life

The road can wind like my hidden hair bow  
You clear my face so I can feel the breeze  
And down below it's Monaco  
And Mister, I don't know a soul

I'll drop off the keys at valet  
Look out my window bay  
One afternoon martini  
Wouldn't want it any other way

I'll stop, kiss my blues goodbye  
Breathe until I soar outside my crazy nights  
And live the Riviera life  
I'll stop, thankyou for today  
I'm sure that by candlelight, I'll be alright  
And live a Riviera life

So whenever  
My eyes get weary  
I'm not fearing what life brings  
Forever  
When times make me teary  
I'll know what I was meant to do  
I've nothing at all to lose

I'll stop, kiss my blues goodbye  
Breathe until I soar outside my crazy nights  
And live the Riviera life  
I'll stop, thankyou for today  
I'm sure that by candlelight, I'll be alright  
And live a Riviera life

Mmm...  
Dududa ta ta ta ta ta  
Mmm...

I'll live a Riviera life
