

# The First Time I Loved Forever

Carol Banawa

The first time I loved forever  
Was when you whispered my name  
And I knew at once you loved me  
For the me of who I am

The first time I loved forever  
I cast all else aside  
And I bid my heart to follow  
Be there no more need to hide

And if wishes and dreams are merely for children  
And if love's a tale for fools  
I'll live the dream with you

For all my life and forever  
There's a truth I'll always know  
When my world divides and shatters  
You love is where I'll go
