

# Save the Children

Carola

Save the children  
Save the kids of this world  
Save the children  
Let their prayers be heard

Cold and hungry  
In the ruins of war  
Save the children  
Save them all

Save the children  
Save the ones who must suffer each day  
Save the children  
And give them hope today

And save the children  
From the heat and the sun  
Save the children  
What on earth have they done  
And save your sympathy  
Without action they're lost  
And we got to save the children  
Save them all

Save, save the children  
Save the ones who must suffer each day  
Save the children  
And give them hope today

I've seen the suffering faces  
Flashing over my TV screen  
And when I open my newspaper  
Over and over these heart breaking scenes

We got to save  
Save the children  
Save the ones who must suffer each day  
We got to save  
Save the children  
And give them hope today  
We got to save the children  
And give them hope today  
Put your love into action  
And give them hope today  
And give them hope  
Today
