

State of Grace

Carola

Spending time in this dirty city
Feels like I'll never come clean
Could be I'll just go crazy
Working on the ways and means

I close my eyes and feel you here
I can see your face
I reach inside and I feel no fear
When I'm with you I'm in a state of grace

You've got me in a state of grace
This human heart is overflowing
And the world's not such a lonely place
Cause I'm standin' in a state of grace

I can take whatever they got
I can take the rain
You're the calm in the raging storm
You're the eye of the hurricane

And when you love me
You lift me up to a higher place
And I am healed by the heat of your touch
Taking me into a state of grace

You've got me in a state of grace...

And I'm not alone and never will
I be on my own
I carry you with me
Carry you with me

You've got me in a state of grace...
