

Vomit

Vomit

You make me feel so nauseous
I like how you're just honest
Now say you promise
Fuck

When the bottle ends the night ends too
I don't like to sleep 'cause then I dream of you
It's true
I don't like to sleep if its not with you

Vomit

You make me feel so nauseous
I like how you're just honest
Baby, please just promise

Promise me that you'll never hurt me
You say you care, then do me dirty
I want you in the worst way
I want you in the worst way
Love me on a bad day

Vomit

You make me feel so nauseous
I like how you're just honest
Baby, please just promise

Promise me that you'll never hurt me
You say you love me then do me dirty
I want you in the worst way, I want you in the worst way
Don't make me need first aid

Vomit
