

xo I hope u die

carolesdaughter

Check your timepiece, I'm arriving solo
You and I meet, that's a crime scene photo
Took a long look at what I need, oh, no
I forgot you, don't remind me

Of your need for attention
Your immature resentment
And don't make me mention
Your moody brooding got so embarrassing
I wanna cover you in kerosene
Dude, you're the fruit of poor parenting
So, pick up your stuff before I burn it
I wrote this song for you, so learn it

Check your timepiece, I'm arriving solo
You and I meet, that's a crime scene photo
Took a long look at what I need, oh, no
I forgot you and don't remind me

Check your timepiece, I'm arriving solo
You and I meet, that's a crime scene photo
Took a long look at what I need, oh, no
I forgot you, don't remind me

I forgot you, don't remind me
Of the ways you bring me down
Poison my phone
I can't even get stoned
Let me drown in this cloud
All the ways you tore me up
Watered my flame
I'm erasing your face
XO, I hope u die

Check your timepiece, I'm arriving solo
You and I meet, that's a crime scene photo
Took a long look at what I need, oh, no
I forgot you, don't remind me

Check your timepiece, I'm arriving solo
You and I meet, that's a crime scene photo
Took a long look at what I need, oh, no
I forgot you, don't remind me

Check your timepiece, I'm arriving solo
You and I meet, that's a crime scene photo
Took a long look at what I need, oh, no
I forgot you, don't remind me
