

Salvation

Carolina Liar

There's a voice inside my head
And it cracks the way yours did
When we fought it out like kids
It could wake the dead
Now I miss the way you scream
I reach for you should be
In a bed that's not my own
Some town you've never seen
No matter how long
I'd lie and did you wrong
I've done my time, oh
God knows that I've learned and I need you

Salvation lies within you
You know it's true
Until I die I will love you
You know it's true

When you sleep you grind your teeth
And it made me so crazy
I couldn't sleep awake those nights
The thought makes me smile
I started washing my own clothes
And I'm cleaner I suppose
I've learned to cook for myself
But I always eat alone
No matter how long
I lied and I did you wrong
I've done my time, oh
God knows that I've learned and I need you

Salvation lies within you
You know it's true
Until I die I will love you
Yeah, you know it's true

You know it's true
Salvation lies within you

Salvation lies within you
You know it's true
Until I die I will love you
You know it's true
Salvation lies within you
You know it's true
Until I die I will love you
You know it's true
