Keep It Safe

Caroline Jones

It's not if but when he says
Those three words I know we feel
It's not if but when we're ready
To tell the whole world that it's real
Ooh, but for now it's just ours
Could be written in the stars

Take it day by day, sweet and slow
Keep it cool, no one has to know
What we've found is precious as gold
Keep it safe for now
Keep it safe for now

People rush to call it love
Put too much pressure on a new romance
Desperate to find 'the one'
Living in the future tense
But you don't want to miss the magic
It's so rare to have it

Take it day by day, sweet and slow
Keep it cool, no one has to know
What you've found is precious as gold
Keep it safe for now
Keep it safe for now

Keep it safe for now
Safe for now
Keep it safe for now
Keep it safe for now
Keep it safe for now
Keep it safe for now

So take it day by day, sweet and slow
Keep it cool, no one has to know
This love story has never been told
Keep it safe for now

Take it day by day, sweet and slow
Keep it cool, no one has to know
This love story has never been told
Keep it safe for now
Keep it safe for now

Keep it safe for now
