

Talking To Milo

Caroline Jones

I've been talking to Milo a lot
About your sensitive heart
About your sensitive heart
He's the only one that will keep
This secret between us three
That's been weighing on me

'Cause it ain't easy working towards
What we're working through
And only you can know what it will mean for me
To give a child to you

Do you really want to do this, baby?
I swore I'd never let anything change me
Now I gotta grow up, stay in love
Throw away plans like I don't care that much
Find a little fight in my heart for somebody besides me
But you'll be beside me, baby
Won't you be beside me, won't you, baby?

I've been talking to Milo a lot
When you're asleep and I'm crying
I thought he might have some guidance
To you he always seemed ten feet tall
He hung the moon and he had it all
He would've been my brother in law

Most Mothers don't make it through what your Mom made it through
And I kick myself 'cause she reminds me there are worse things
than free time to lose

Do you really want to do this, baby?
I swore I'd never let anything change me
Now I gotta grow up, stay in love
Throw away plans like I don't care that much
Find a little fight in my heart for somebody besides me
But you'll be beside me, won't you, baby?
Won't you be beside me, won't you, baby?

Nick, all I know is most people don't really love like they want to be loved
It's gonna take the best of me to chase your dreams without giving mine up

Do you really want to do this?
Do you really want to do this?
