

Command Z

Caroline Rose

It was a drive-by kind of night
The kind that leads you going nowhere
I told her 'bout how I got high
And had my very first panic attack
A reaction so physical
Tunnel vision like a hit to the head
I looked around at all the people there
As I thought everyone we know will someday be dead

God, I just don't want this to end
Undo, I'm gonna do it again
(I don't know what to do when I feel like shit)
God, I just don't want this to end
(I don't know what to do when I feel like shit)
If you can do this, if you can
