

# Cry!

Caroline Rose

Everybody wants you  
You're the brass ring  
Is it just me?  
Or is this limelight blinding?  
I can't see a thing

Cry, better run, run, run 'cause you're falling apart  
Cry, another little girl with a broken heart

You're gonna cry little girl  
They're gonna rip you apart  
They're gonna cut you wide open  
And the show the whole world what you are  
Where are you climbing to girl?  
There's nothing for you up there  
Better come on back to Earth, you silly thing  
You'll learn your place, yeah

Cry, better run, run, run 'cause you're falling apart  
Cry, just another little girl with a broken heart  
Cry, cry, cry, cry, cry, cry

Cry, better run, run, run 'cause you're falling apart  
Cry, just another little girl with a broken heart  
Cry, cry, cry, cry, cry, cry
