

Let Me In

Caroline Rose

Break me in
This page has got me tethered
And I've been feeling human
From my bed, I hear them whispering
The music from the hall, it filters in
Somebody in the court yells
"I'm in love again"
While I am on my knees

Crying out, when that Moon is bright
Yes, we'll shout
We are young, we're free
And we don't need anyone

Break me out
We'll crawl out of our graves tonight
But we will not make a sound
When the heavens open up, we'll give in
A taste of dirt, our backs a-blistering
Crawl and crawl until our jeans wear thin
We'll scale the trees

Crying out, when that Moon is bright
Yes, we'll shout
We are young, we're free
And we don't need anyone

Just to take a bite out of you
Don't let me settle down
Oh, just to let me taste your skin
With the natives on the prowl
It takes a life to live
So would you please just let me in?
Let me in
Let me in

We're crying out
We're crying out
We're crying out
We are young, we're free
And we don't need anyone
