

Please Let Me Go

Caroline's Spine

You said you were worried about me
I said I was worried about you too
I can't figure out why this aint work

Cause I was the one you would looked to
You keep me a float through all the lonely times
When my ship was sinking

But I can't keep away
From what my heart is telling me
I can't keep away
From what is real
And it's the way I feel

So, Please let me go
I don't wanna love you no more
Please let me go
I've forgotten what love was for
So please let me go
Cause I've forgotten, I've Forgotten now

I remember the day I met you
I remember you looked at me
And then your smile told me what you were thinking

But I can't keep away
From what my heart is telling me
I can't keep away
From what is real
And it's the way I feel

So, Please let me go
I don't wanna love you no more
Please let me go
I've forgotten what love was for
So, Please let me go
Cause I've forgotten I've Forgotten now
(twice more)
