

Unglued

Caroline's Spine

I didn't know if this was right.
But I'll remember this night for the rest of my life
You'd never hurt me the way I hurt myself.
Little boys need help,
and you're all the help I think I need.
When we're alone
When we're alone
When I'm alone I'm thinking about something in your eyes
...makes me come unglued. (Inside you)
I didn't know this was wrong.
But for the first time in my life
I felt like I finally belong.
You'd never hate me,
the way I hate myself.
Little boys need help,
and you're all the help I think I need.
This old man, he played one,
He played knick-knack on my thumb.
This old man, he played two,
he gave me a sign and sent me back to you!
When we're alone
I'm gonna find us a home.
When I'm alone I'm thinking about something in your eyes
...makes me come unglued.
