

Dreaming Without You

Carolyn Dawn Johnson

The hopeful possibilities
Have come and gone away
We've both run out of reasons to stay
Who we are and who we thought we were has somehow changed
We kept trying anyway

It's just not gonna work
It's just not gonna fly
We've been frozen on the edge
Staring at good-bye
We've both reached for the stars
Shared the victories, shared the scars
Made each other's dreams come true
I never thought I'd do
My dreaming without you

You'll go one way, I'll go mine
And take some awkward steps
Almost free except for these regrets
Moving one's the only thing that we have left to do
No one can say we didn't see this through
But...

I'm gonna miss you
I'm gonna miss you

We've both reached for the stars
Shared the victories, shared the scars
Made each other's dreams come true
I never thought I'd do
My dreaming without you
