Carousel Kings

I'm getting back to the place where I wanna be
'Cause I've been tripping over my feet
I wanna be in a place where I feel free
No matter what you'll believe in me

Breaking habits, happens faster
When you help me see through the disaster
Now it feels like crawling backwards is all that I can do

And every time I fall
Again and again and again
You'll see me through it all
We'll fight the good fight 'till the end

Blend me up
Shake me down onto the ground
I wanna fix this disconnection
Never let up, never get down on myself
I swear I'll rise above this contention

I won't get down on myself
Breaking habits, happens faster
When you help me see through the disaster
Now it feels like crawling backwards is all that I can do

And every time I fall
Again and again and again
You'll see me through it all
We'll fight the good fight 'till the end

Every time I fall
You'll see me through it all

Every time I fall
(Breaking habits, happens faster)
(When you help me see through the disaster)
You'll see me through it all
(Now it feels like crawling backwards is all that I can do)

And every time I fall
Again and again and again
You'll see me through it all
We'll fight the good fight 'till the end

And every time I fall (every time I fall)
You'll see me through it all (You'll see me through it all)
