

Army of Open Arms

Carpark North

Look at me now, into my eyes
Let the journey begin
Cut lose all the ties!
You're the sun in my sky
The wind in my face
Nothing's stopping us now,
We're on our way!

There's a start to us all, a place to begin
When you woke me up and wonder where I've been
You said we only live if you need to try
When I saw you smile, I knew you were right!

Chorus:

So let the light back in,
We're coming with an army of open arms
You let the love back in,
We're coming with an army of open hearts
Oh, oh, oh, let it in!
Oh, oh, oh let it in!
You let it in!
Coming in is ... an army of open arms!

There are souls to my left, empty of hope
There's the one to my right, healthy to grow
Destination unknown, but we're in good hands
We're moving towards a new day!

Chorus:

So let the light back in,
We're coming with an army of open arms
You let the love back in,
We're coming with an army of open hearts
Oh, oh, oh, let it in!
Oh, oh, oh let it in!
You let it in!
Coming in is ... an army of open arms!

Look at me now, into our eyes
Let the journey begin
Cut lose all the ties!
We're the sun in your sky
The wind in your face
And we're moving towards a brand new day!

We're coming with an army of open hearts
We're coming with an army of open hearts
Oh, oh, oh,
Oh, oh, oh
Come with me this way
An army of open hearts
Come with me!
I let the light back in, yeah
We let the light back in, yeah
I let the light back in
I let the light back in
