

Dancing With My Ghost

Carpark North

Somehow they find me in the darkness
What scares me the most is what I hear
The sound of their voices, whispering noises
My demons are here
I block the door to my apartment
To keep you away from any harm
Alone and abandoned
Go sound the alarm

'Cause when the hounds smell blood
They will be crawling the walls
And they're not gonna stop
Until they've gotten it all
And now the hunt has started
I'm the only one invited
You're on the outside knocking, I can hear that you call
And I just try to put my mouth through the cracks in the wall
To let you know, I'm only dancing with my ghost

Let's dance
Dance with me, dance
Dance with me, dance
Dance with me, dance
Dance with me
Look at you go
Dance with me, dance
Dance with me, dance
Dance with me, dance
Stop screaming, stop screaming it won't make me—

I hear your breathing on the outside
My voice is tired from the screams
Your nails keep scratching
On the room that I'm trapped in
But it's not how it seems

'Cause when the hounds smell blood
They will be crawling the walls
And I try to fight them off
Before they've gotten it all
And now the hunt has started
I'm the only one invited
You're on the outside knocking
I can hear that you call
And I just try to put my mouth
Through the cracks in the wall
To let you know, I'm only dancing with my ghost

Argh
Dance with me, dance
Dance with me, dance
I'm only dancing with me ghost (Dance with me, dance)
Look at you go
Dance with me, dance
Dance with me, dance
I'm only dancing with me ghost (Dance with me, dance)
