

Grey Clouds

Carpark North

So the grey clouds are here
The days are dark, the rain is pourin' down
I'm closin' down another year
And I hope I'll see you in my town again
Yeah, I hope I'll see you here again, my friend

It took some time to get you near
All alone your walls are fallin' down
For a while you disappeared
And I had to let you know I could not pretend
Yeah, I had to let you go to be your friend

(Ahh)

(Ahh)

(Ahh)

(Ahh)

Lonely streets and empty cars
Nothing new 'round here but time and scars
But you are out there chasin' stars
Still, I hope to see you in my home again
Yeah, I hope I haven't lost you in the end
