

# You're the One

Carpenters

Every night, every day  
You're the one I always dream of  
Every line of your face is sketched so plain inside my heart  
You've grown so deep inside of me  
You're everything I feel and see  
And you're the one, you're the one I love

All my life, all my love  
I can feel when you're beside me  
All that's right, all that's wrong  
Suddenly becomes so clear  
My heart has overtaken me  
With feelings you awake in me  
And you're the one  
You're the one I love

Only you could move me enough to believe  
In love one more time  
All I need to know for tomorrow  
Is that you're mine  
Mine for a lifetime

If our friends all around  
Find it hard to understand us  
You and I understand  
The other one so very well  
And that's what I've been looking for  
So I keep coming back for more  
'Cause you're the one

You're the one I love  
You're the one  
You're the one I love
