

More Now

Carrollton

I remember when I was young
So carefree and unafraid
Every doubt could be overcome
With a childlike faith

But the day of my trial would come
Like an earthquake to my beliefs
And the doubts I could not outrun
When my whole world was crashing down
Brought me to my knees

And I thought I was done
And I almost gave up
When my whole world was crashing down
Now I can't shake this truth
After all I've been through somehow
Lord, I believe in You more now

So I don't need to understand
If You pushed me or let me fall
Or the days when Your tender hand
Was a wrecking ball, oh

The illusion of my control
Has shattered and been replaced
With a hunger deep in my soul
And a childlike faith

Oh, And I thought I was done
And I almost gave up
When my whole world was crashing down
Now I can't shake this truth
After all I've been through somehow
Lord, I believe in You more now

Oh, I believe in You
Oh, I believe there are questions that may not get answers
No matter the prayers that we pray
I believe when it feels like the whole world is breaking
That somehow Your hope still remains
Even death cannot steal us away

'Cause I thought I was done
And I almost gave up
When my whole world was crashing down
Now I can't shake this truth
After all I've been through somehow
Lord, I believe in You more

And I thought I was done
And I almost gave up
When my whole world was crashing down
Now I can't shake this truth
After all I've been through somehow
Lord, I believe in You more now

Lord, I believe in You more now

I believe in You more
Believe in You
I believe in You more now
