

This Is Life

Carrollton

We go a thousand miles an hour, and we don't look back
We go a thousand miles an hour, and never stop to look around

This is life
This is love
This is breath I feel in my lungs
I've never felt this way about life until I saw Your love with
my eyes

There has to be much more to life than just these hands spinnin
g around
And if our time is spent is spent inside the lines, we'll miss
what we could've found

This is life
This is love
This is breath I feel in my lungs
I've never felt this way about life until I saw your love with
my eyes

I wanna sing, and I wanna dance with Your symphony!
If there's no pain in the offering then how can I say I've live
d
When sacrifice is daily life, joy and peace will be mine

This is life
This is love
This is breath I feel in my lungs
I've never felt this way about life until I saw Your love with
my eyes

This is life (Oh!) This is love
This is breath I feel in my lungs
I've never felt this way about life until I saw Your love with
my eyes
I saw Your love with my eyes
I saw Your love with my eyes
