

We've lost our heading
We have lost our way
Now fear is spreading
We fall and pray

We're getting closer
To the end
Head spinning faster

When our worlds collide
There is nowhere for us to hide
Yeah, we live and die
On this universal tide

No more debating
Much to our dismay
The world is fading
Into decay

We're coming closer
To the end
It's spinning faster

When our worlds collide
There is nowhere for us to hide
Yeah, we live and die
On this universal tide

We're treading water, we're getting boarded,
We're heading under, upsetting order, upsetting order

When our worlds collide
There is nowhere for us to hide
Yeah, we live and die
On this universal tide

When our worlds collide
There is nowhere for us to hide
Yeah, we live and die
On this universal tide
