Take the best  
The best is all that i can give  
And find a way so can i fall  
To me it means nothing at all  
But I rise again  
Fear the pain  
It's greedy but it's oh so vain

And it shapes me  
Swear if i'm true  
And the best, the goal of time  
Even if I die

Tonight i will follow  
I've made my mind  
And I, I will follow  
I'm with this bet  
That lies, good thing i've done  
And I, I become

There's nothing else  
Carry all that what you can  
Find a face  
I'm just drunk with what you said  
And this lies, too soon  
For all of them but not for you

And it shapes me  
Swear if i'm true  
And the best, the goal of time  
Even if I die

Tonight i will follow  
I've made my mind  
And I, I will follow  
I'm with this bet  
That lies, good thing i've done  
And I, I become
