

Take Me With You

Cartel

She's just this girl right down the street
She's got my heart, my soul to keep
She's got my world turned upside down
Tied up and now I guess it shows
Locked down in
Maybe I'm not ordinary boy

But she had to notice me
I made it so obvious to see
Now she says she's going up to see the world

And if you go there, oh please take me with you
If you go there, oh please take me with you
Cause I can never see what you
I couldn't see that road
So if you go right now, please take me with you

I have, oh so endlessly,
Built up all these fantasies
We turn this world upside down
She said, if you got heart, you got me
And if you got dreams, well let's just see
You're not so ordinary as you believe

Cause she had to notice me
I made it so obvious to see
Now she says she's going up to see the world

And if you go there, oh please take me with you
Say if you go there, oh please take me with you
Cause I can never see what you
I couldn't see that road
So if you go right now, please take me with you

So if you go there, oh please take me with you
Say if you go there, oh please take me with you
Cause I can never see what you
I couldn't see that road
So if you go right now, please take me with you.
