This Is Who We Are

Patience, child it will find you Your deepest dreams will guide you the moment that you're born all night my fear inside will come through haunting right behind you don't let it get that far Somehow breathe a little deeper now cause this is who we are when we look into their eyes don't fly so high so high little bird you'll get your wings clipped we'll pick it up, pick it up now you've learned Searching for moment that defines you your deepest dreams remind you get out before you're gone Now that all you hear is what surrounds you push it out, give it out from around you never stop and you will find it all Somehow breathe a little deeper now cause this is who we are when we look into their eyes don't fly so high so high little bird you'll get your wings clipped we'll pick it up, pick it up now you've learned So we decide... We decided We decide this now So find out how we can survive How we can survive If we learn how to live our lives If we learn how to live... Somehow breathe a little deeper now cause this is who we are when we look into their eyes don't fly so high so high little bird you'll get your wings clipped pick it up, pick it up now you've learned
