

# Comet

Carter Vail

I took a picture of the comet as it fell by my house  
In the pool out back  
You turned to me in technicolor, asked me what it's about  
Can you feel it still?

Can you feel it?  
Can you feel it still?  
Can you feel it?  
Can you feel it still?  
Can you feel it?  
Can you feel it still?

Andre's talking shit, a cigarette slips out his mouth  
As you start to laugh  
I'm pretty sure you're underwater every time you're around  
I can feel still

I can feel it  
I can feel it still  
I can feel it  
I can feel it still  
I can feel it  
I can feel it still

Camera light  
Baby can you be alright?  
You're on fire  
I'm spinning and I'm done

Tell me when the party's over will you stick around?  
'Cause the water's always ending like the better of?  
I can feel still

I can feel it  
I can feel it still  
I can feel it  
I can feel it still (Yeah)  
I can feel it  
I can feel it still  
(That's right, that's right, walk it out, uh-huh)

Camera light  
Baby can you be alright?  
You're on fire  
I'm spinning and I'm done

Camera light  
Baby can you be alright?  
You're on fire  
I'm spinning and I'm done

Camera light  
Baby can you be alright?  
You're on fire  
I'm spinning and I'm done

That's right, that's right, walk it out, uh-huh

That's right, that's right, walk it out, uh-huh
