When I fell, I fell for you  
100 cowboys could never do  
Can we get on? On?

Walking down Electric Avenue  
Breaking my back to talk to you  
Can we get on? On?

Posting, breakdown, sentimental  
When I see you, I get a little  
In my head, in my head  
In my head

If I'm alright  
Tell me why I go wrong  
I should know better by now  
I should know better now

Oh my, my, whatcha gonna do?  
Mixin' Makers and Mountain Dew  
Can we get on? On?

Kiss and do drugs, pretend it's enough  
You move to the city, it breaks my heart up  
You kiss and do drugs, pretend it's enough  
You move to the city, it breaks my heart up

If I'm alright  
Tell me why I go wrong  
I should know better by now  
I should know better by now  
I should know better by now  
I should know better by now  
I should know better by now  
I should know better now
