

HERE IT GOES AGAIN

Carter Vail

Oh it's been so long
Oh it's been so long
Oh it's been so long
Oh it's been so long

Every summer feels the same
I order shit at the cafe
And I get the same thing every day
Barista still don't know me
Damn

Carpal tunnel tennis ball
Stomach drops the rocket stalls
I hit the gas I hit the wall
I hope the prize is money

Here it goes again
Sitting on your star
Oh it's been so long
Oh it's been so long
Space and time it bends
I wonder where you are
Oh it's been so long
Oh it's been so long

Space is cold and getting colder
Every year I'm getting older
Rocket guys and valley girls
She thinks that I talk funny
Damn

Fall is cold but space is freezing
Houston says he don't believe me
I'm pushing buttons on the board
I hope that they do something

Here it goes again
Sitting on your star
Oh it's been so long
Oh it's been so long
Space and time it bends
I wonder where you are
Oh it's been so long
Oh it's been so long

Without you without you
(Oh it's been so long)

Without you without you
(Oh it's been so long)

(Oh it's been so long)
(Oh it's been so long)
