

# Everything I Say

Cary Brothers

Sit in the real sun  
How can I make it go away  
Today?  
Working the easy ones  
Typical, all these boys you capture  
Just to laugh at

Everything I say  
And do for you  
Everything I say  
And do for you  
Everything I say  
And do for you... for you

Tell me the real lie  
What is the thing you're going after  
Cause you have to?

Everything I say  
And do for you  
Everything I say  
And do for you  
Everything I say  
And do for you... for you

My love, my lover  
My love, my lover  
My love, my lover  
My love's exposure

Everything I say  
And do for you... for you
