

# Everything

Cary Brothers

Everything  
Feels like it's falling apart  
Everything  
Taking us back to the  
Sparks fly when we dive  
Into the memories  
Love we had our time  
Thank you for everything

Everything  
Windows are starting to close  
Everything  
Happens for reasons we don't yet know just why  
Darkest of memories  
Angels in disguise  
Thank you for everything

Give it to you  
Give it to you  
Give it to you

Give it to you  
Give it to you  
Give it to you

Everything  
Feels like it's falling apart  
Everything  
Taking us back to the  
Sparks fly when we dive  
Into the memories  
Love we had our time  
Thank you for everything
