

# Lovin' on You

Cary Brothers

Baby,  
we could be older  
It could be someday  
You could be wrapped up in my arms  
And it's so crazy  
Everything's moving  
Faster than I want to  
And you make me slow down

Because lovin' on you was the best thing that I ever did for me  
that I ever did for me  
and we got love to see

Because lovin' on you was the best thing that I ever did for me  
that I ever did for me  
and we got love to see

Shake it up  
I got your number  
And tell me a story  
Tell me all the things that make you safe and sound  
You know maybe  
This is the first time  
That you'll be all mine  
We were lost and found

Because lovin' on you was the best thing that I ever did for me  
that I ever did for me  
and we got love to see

Because lovin' on you was the best thing that I ever did for me  
that I ever did for me  
and we got love to see

We'll fix a world that needs wonder  
Falling under the stars  
We'll make it all that we wanted  
Just tell me when we could stop  
Just tell me when we could stop

Because lovin' on you was the best thing that I ever did for me  
that I ever did for me

Because lovin' on you was the best thing that I ever did for me  
that I ever did for me

love, love, love, love, love, love, love

Because lovin' on you was the best thing that I ever did for me  
that I ever did for me  
and we got love to see
