

Fire To Start

CARYS

When you're ready
Come to find that I was always here
Hot as heavy
Filled with hopes that I could hold you near
Burns my mouth
If I could hide these words you shouldn't hear

You got me reckless
When I look at you I feel so weak
Don't forget this
You're still the only one I want to see
Burning sound
Almost let it slip right through my teeth

No, I don't want to kill the cold
I always take it too far
Do I stay here on my own
Should've waited in the car
I just want to come home
Didn't think it would be hard
But now I'm standing in the cold
Trying to get the fire to start

When you're ready
Say the word and I'll be on my way
Hot as steady
What I feel is never gonna change
Reaching out
I would give it all to make you stay

I don't want you to know that I'm waiting
I don't want you to know that I'm waiting
I don't want you to know that I'm waiting
I don't want you to know that I'm waiting

No, I don't want to kill the cold
I always take it too far
Do I stay here on my own
Should've waited in the car
I just want to come home
Didn't think it would be hard
But now I'm standing in the cold
Trying to get the fire to start

No, I don't want to kill the cold
I always take it too far
Do I stay here on my own
Should've waited in the car
I just want to come home
Didn't think it would be hard
But now I'm standing in the cold
Trying to get the fire to start
