

Live With Yourself

CARYS

If you ever wonder why
I up and left you
It's because I heard about
The things that you do
When you think nobody's
Watching you
You try to dress
Your skeletons
As funny clowns
I see it now
I see it now
And you thought no one
Would ever find out

I did it, I did it, I see it
I know what you're tryna hide, oh
I feel it, I feel it, your ego
That no one can satisfy
But you're just a coward
That's falling apart on the inside
And you thought no one
Would ever find out

You love putting people in chains
Get off on the power you take
I still get to walk away
And you gotta live with yourself
Thought you could hold me down
Told me I'd be nothing without you
I still got to walk away
And you gotta live with yourself
You gotta live with yourself
