

# This Time

CARYS

Take a trip  
Quite biting on your lip  
Let your heart get hit  
Baby last time  
You and I got by walking on a thin line  
Love me this time, fantasy

Nothing like a kiss when your lips are on me  
Lips are on me  
Lips are on me  
Nothing like a kiss when your lips

I think I'm in too deep  
I want it all  
Touching you is a gateway drug  
Take it too far  
We're on the run  
You and I til the days are done  
You and I til the days are done

Pick me up in the middle of the night  
Baby I won't bite  
For the last time I don't want a goodbye  
See us in a new light  
So give me this time, mon cheri

Nothing like a kiss when your lips are on me  
Lips are on me  
Lips are on me  
Nothing like a kiss when your lips

I think I'm in too deep  
I want it all  
Touching you is a gateway drug  
Take it too far  
We're on the run  
You and I til the days are done  
You and I til the days are done  
You and I til the days are done

Fly with me to a better place  
We can take the fast car on the highway  
And I really don't care what my friends say  
You know I'm gonna chase you anyway  
Kind of wish you came with a warning  
Hoping we don't fight in the morning  
In the morning  
In the morning  
Hoping we don't fight in the morning  
In the morning  
In the morning

(Nothing like a kiss  
Nothing like a kiss  
Nothing like a kiss  
Nothing like a kiss  
Nothing like a kiss when your lips)

Think I'm in too deep  
I want it all  
Touching you is a gateway drug  
Take it too far  
We're on the run  
You and I til the days are done  
You and I til the days are done  
You and I til the days are done
