When I lie, you lie, you switch sides, girl, we can be together  
You was outside creepin' with my homies and I fucked your best friend like you showed me  
We both try keep it on the low (On the low), but you a ho (You a ho) and I'm a ho (I'm a ho)

I'm a slut, you a ho, you a freak  
I got a different girl every day of the week  
But you was in the studio with Meek and you let his homeboy beat  
When the night before last, me and you was in the sheets  
So I creped, TLC was on repeat  
Oh, you think you T-Boz? I'm with your girl into you realize no more Chanel, it's back to Levi's (Haha)

Just last week, I fucked with one of her cousins  
She did the same thing, I thought she was buggin'  
We love to sixty-nine, so we can't keep it a buck or a hundred  
I don't love her, but I don't want double  
Nah, I ain't a sucker, I just fuck her with a rubber ('Cause)
