I got a Rollie and a AP
I'm all the way up, Bleek hittin' Jay-Z
I'm paid in full, like Azie
You know I'm cooler than the AC
My shorty went left, but I'm still right
When I get the deal Imma still swipe
I could tell you what the money feel like
I could tell you what the money feel like
I had a rental and a few runners
The four pieces did a few numbers
Been gettin' money for a few summers
I got them old and them new hundreds

Been gettin' money thought I told ya

Did a couple shows made 80 pack
Spent it all then I made it back
I stopped scalin' got a plate of that
I know they mad I know they hated that
Did the whole dub but no jail could hold me
Realize I'm the one but they never told me
So pay me now you could never owe me
I got the white got the yellow Rollie
Cut the money, love me
Cut the money, love me

I gotta laugh 'cause your money funny
She don't know how to act when the money 'round her
So much money broke the money counter
