

In My Hood

Casanova

I know, I know, I know, I know, I know
I know, I know, I know, I know, I know

I know some places we can go
That you can get it for the low
I know some places we can go
Just make sure you bring that .44
'Cuz these niggas will kill you
If they don't feel you
These niggas will kill you
If they don't feel you
'Cuz these niggas will kill you
If they don't feel you
'Cuz these niggas will kill you
If they don't feel you

Thank God I survived these wars
That's the pain that's behind these scars
I got the beam cheap and the nine ain't far
'Cuz they'll kill you in my hood if you drive these cars
Nigga I could get you coke, I could get you dope
I could get you pills, shit I could get you killed
In my hood shit is real, me and Crash found a way to purge
Blacko get locked and he ain't say a word
They gave him wild time, I got about nine
Bottom line, shit i was outside
Around here in drought time you could find it but it's stepped on
Just put your vest on and bring your weapon
'Cuz they twirlin' and they wooin'
And SuWoo'n, that's what they doin'

I know some places we can go
That you can get it for the low
I know some places we can go
Just make sure you bring that .44
'Cuz these niggas will kill you
If they don't feel you
These niggas will kill you
If they don't feel you

If you catch a new case and you a predicate felon
Don't come home too soon, they gon' swear that you tellin'
They'll back out guns and aim at your melon
They'll take your life over dice and take what you sellin'
And they don't care who you trappin' for, they ain't with the back and forth
That's what the ratchet for, think with the clap it off
Punch was the driver, Bentley was the lookout
Every summer niggas shootin' at the cookout
Ask Mooley how the judge pull the book out
Fuckin' threw it at me, [?] was just shootin' at me
'Cuz I'd rather die on the streets
You gotta ride with the heat, you better slide when its beef
In my hood

I know some places we can go
That you can get it for the low
I know some places we can go

Just make sure you bring that .44
'Cuz these niggas will kill you
If they don't feel you
These niggas will kill you
If they don't feel you
