Said I would leave my girl, but I lied  
Yeah, I hit it and quit it, what, you surprised?  
You saw the signs  
You was textin' my phone way after 9, got no reply  
I love your thighs, your booty size  
Should be a crime but you know the vibes  
It's burger and fries when we eat out  
Grab your track from the back, pull your weave out  
Girl, you let me fuck you  
Only 'cause your main nigga was a scrub  
You was talkin' fly like a nigga with the plug  
Lookin' for a come-up, could've told me what it was

She FaceTime me with the serious face  
Dead lyin', talkin' 'bout how her period late  
Wait, wait, that's word to my blood set  
I'll get a negative on that blood test  
Shawty mad, shawty upset  
She ain't know she was fuckin' with a rough neck  
Should've known from the rough sex  
And the drunk sex, that I sent her a drunk text  
Girl, you know I want you (Hey)  
We should link up  
Hit the same day that a nigga switched up  
'Cause you called the next day and I didn't pick up
