

# Can't Stop The Rain

Cascada

How, how am I supposed to feel  
When everything surrounding me  
Is nothing but a fake disguise  
I don't know,  
I don't know where I belong  
It's time for me to carry on  
I'll say goodbye

I can't stop the rain from fallin'  
I'm drownin in these tears I cry  
Since you left without a warning  
I face the dawn with sleepless eyes  
No I can't go on  
When clouds are pushin' down on me, boy  
I can't stop, I can't stop the rain  
From fallin'

So, tell me where I went wrong  
I'm stuck inside a dream long gone  
It's hard to reveal the truth  
Your love,  
Is nothing but a bitter taste  
It's better if I walk away,  
Away from you

I can't stop the rain from fallin'  
I'm drownin in these tears I cry  
Since you left without a warning  
I face the dawn with sleepless eyes  
No I can't go on  
When clouds are pushin' down on me, boy  
I can't stop, I can't stop the rain  
From fallin'
