

# Fever

Cascada

I'm not a beauty queen  
Travelling in a limousine  
I'm a girl but don't call me baby

Who the fuck is VIP?  
Living life in luxury  
I don't care so just call me crazy  
Can you give it out?

Don't stop just take it to the limit  
Watch me boy it's spinning around this time  
Hush, hush, running to the night, feel alive

I just can't get enough, when I'm with you  
'Cause your fever, makes me feel so good  
Turn it up boy you make your move  
See I'm burning but it feels so good

Can't get enough when I'm with you  
You got fever, but it feels so good  
Turn it up baby make your move  
Keep me burning 'cause it feels so good

I don't need no Superman  
Trying to tell me who I am  
Know it all's a driving me crazy

Nothing ever is for sure  
I can't take this anymore  
All I want is yes or no baby  
Can you give it out?

Don't stop just take it to the limit  
Watch me boy it's spinning around this time  
Hush, hush, running to the night feel alive

I just can't get enough, when I'm with you  
'Cause your fever, makes me feel so good  
Turn it up boy you make your move  
See I'm burning but it feels so good

Can't get enough when I'm with you  
You got fever but it feels so good  
Turn it up baby make your move  
Keep me burning 'cause it feels so good

It's so hot, do it, do it real good  
Can't stop, do it, do it real good  
It's so hot, do it, do it real good  
Can't stop, do it, do it real good

It's so hot, do it, do it real good  
Baby, you got fever  
Can't stop, do it, do it real good  
Baby, you got fever  
It's so hot, do it, do it real good  
Baby, you got fever

Can't stop

I just can't get enough, when I'm with you  
'Cause your fever, makes me feel so good  
Turn it up boy you make your move  
See I'm burning but it feels so good

Can't get enough when I'm with you  
You got fever but it feels so good  
Turn it up baby make your move  
Keep me burning 'cause it feels so good
