One Last Dance

Cascada

One last dance

Came along, I was feeling so lonely
Like a spark turned shadow into light
You've chased away all the demons when I was on my own

We've been doing it all for love
To stop the rain from falling
We've been down this road before
But things will never be the same again

Give me one last dance in the rhythm of the night to our bad ro
mance
In the shadow of the blinding lights nothing is forever
Come and take my hand for one last dance, one last dance
In the shadow of the blinding lights nothing is forever
Come and take my hand for one last dance

Came along, I was feeling so empty
I was lost, you turned my world around
Never though it would come to an ending just like this

We've been doing it all for love
To stop the rain from falling
We've been down this road before
But things will never be the same again

Give me one last dance in the rhythm of the night to our bad ro
mance
In the shadow of the blinding lights nothing is forever
Come and take my hand for one last dance, one last dance
In the shadow of the blinding lights nothing is forever
Come and take my hand for one last dance

For one last dance
For one last dance
