

# Playground

Cascada

Diamonds in the night  
Shining on us, playing with the light  
Bring out my inner child  
Take me back to another time

Round and round  
Won't let my feet touch the ground, oh  
I wanna swing from your love  
Like your heart is my playground  
I wanna slide into your arms  
Like your heart is my playground  
Like your heart is my playground

Playground, playground  
Playground, playground  
Playground, playground  
Playground, playground  
Playground, playground  
Like your heart is my playground  
Like your heart is my playground  
Like your heart is my playground  
Playground, playground

Sirens ringing bright  
They're taking us to another high  
And our hearts are driven wild  
You and I, both read the signs

Round and round  
Won't let my feet touch the ground, oh  
I wanna swing from your love  
Like your heart is my playground  
I wanna slide into your arms  
Like you're heart is my playground  
Oh, like your heart is my playground

Playground, playground  
Playground, playground  
Playground, playground  
Playground, playground  
Like your heart is my playground  
Like your heart is my playground  
Oh, like your heart is my playground
