

Even Though

Case

I remember summer girl
We fell apart
We were so close girl
I never thought another in my life
But you moved on
Hope you're doing fine
They say you're in love
But I know you still think of me

- Even though he may kiss your body real nice
I know you think of me girl every time
Even though he makes love to you every night
I know you think of me girl every time

Now I hear he treats you real good
Makes you so happy but
That cannot compare to all the time and love that we've invested
It's o.k. I've moved on
So take care of yourself but
Just remember these words
I know you still think of me

When he runs fingers through your hair
I know you think of me every time
When he gives you bubble baths
I know you think of me every time
When he dives for your treasure
I know you reminisce every time
About love we shared can't compare to nothing babe
