

# Love Will Do

Case

Too many days I think about  
Times I can't live without  
And all these plans I made them all with you  
Too many nights I cried alone  
Cause you won't pickup the phone  
Damn that's how this love will do  
Too many nights I sit and cry  
Now I just wonder why  
How the hell did she lose you  
Because I'm not that busy babe  
Anything just for you  
Damn that's how this love will do

Cause I'm tired of wondering why  
Can't say I didn't try  
I thought you were all I need  
My heart's in everything  
My pride got in the way  
Feeling love is all I see

Last night my love came crashing down  
Now that your love has gone  
It's not my fault you stuck around  
While I was doing wrong

So many night I mill about  
I don't want to think about  
Everything that I lost with you  
And if I pray maybe you'll stay  
But you need to go away  
Damn that's how this love will do

Cause I'm tired of wondering why  
Can't say I didn't try  
I thought you were all I need  
My heart's in everything  
My pride got in the way  
Feeling love is all I see

Last night my love came crashing down  
Now that your love has gone  
It's not my fault you stuck around  
While I was doing wrong

Last night my love came crashing down  
Now that your love has gone  
It's not my fault you stuck around  
While I was doing wrong
