

# This Could Be

Case

Kisses holding matches  
Keep the fire burned  
Prepare for a long night  
Of loving  
Summertime high

This could be something that goes for eternity, oh baby  
This could be something that grows beyond you and me  
Know what I'm talking my baby?

Hair down, negligee  
Run my fingers on your body babe  
Touchy situation  
You're my lady  
And do whatever it takes to please you

(Love you girl, love you girl, need you girl)  
Put on some music babe  
Let's be

This could be something that goes for eternity, little you and  
me  
This could be something that grows beyond you and me

This could be something that goes for eternity, oh baby  
This could be something that grows beyond you and me, I love yo  
u baby  
This could be something that goes for eternity, oh baby  
This could be something that grows beyond you and me
